Custom Labels Can Include:

- Retail Price
- Color Logo
- Bar Code
- SKU/Item Number
- Short Text Comment
- Botanical/Common Name
- Description

Sample: Front of Label

Dwarf Alberta Spruce
Picea glauca 'Conica'

Country Grown™

Watering: Proper watering during the first year of growth is essential to the success of any newly transplanted plant. Water the root zone thoroughly at regular intervals until the plant is established, especially during the hot summer months. Mulch around the base of the plant will help retain water and prevent evaporation from the soil surface. Enjoy your investment and watch your investment grow, but please don't forget

#1 Container Picea Glauca 'Conica'
Dwarf Alberta Spruce

\$14.99
