

## New York Puzzle Co

New York Puzzle Co has a simple philosophy: that puzzles should be more than just a fun activity to do at home – puzzles should be works of interesting art! Part fun activity and part home décor, rather than throw them away when finished, they should be kept on display.

Through the years, their line has grown to an expansive line of puzzles, playing cards, mugs, memory games and tote bags. From magazine covers with iconic art to composed art pieces with common themes, their products are all gallery worthy gifts.
